

Thank you for your interest in a custom belt buckle!

I have a pretty simple process. Please draw a circle or square on a piece of paper and draw out what you want and where you would like it placed, then text a picture of that to me at 432.940.6596. If you have a brand or company logo, please send a picture of that as well so I can reproduce it exactly as it looks. (See example below)

If you have an existing buckle, snap a picture and text it to me at 432.940.6596, along with a note of any change you would like.

All I need is a rough idea. Once I receive your picture, I will create a computerized image and will send it back to you for your input and approval.

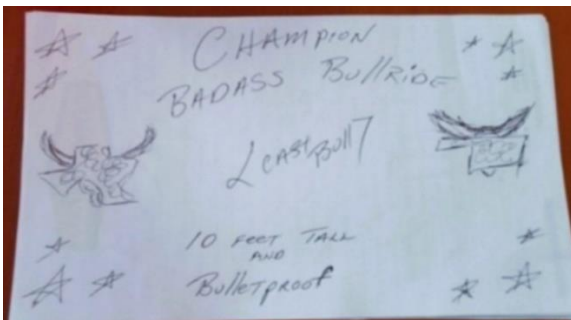

Include your email address in the text when you send your picture(s). Then when you have approved the drawing, I will send you an invoice by email that you can pay with PayPal or credit card. Once paid, I'll get your buckle started.

Please note, my turnaround time to complete and ship your order of 1 or multiple buckles is 30 to 45 days in most cases.

Thanks so much and I look forward to hearing from you!

Leo

You send me this -

I'll send you a computerized drawing like this -

And your finished buckle will look like this -
